

Coulter Farms to offer produce on Water Street

Continued from Page 1

•Creek Road Extension, between the east village line and the south village line, remains 40 mph.

•Garden Lane – 15 mph.

•Historical Square Apartments, on or along the roadways on the premises (920 Mohawk St.) –15 mph.

•Forest Road, between the north village line and the south village line – 30 mph.

•Mountain View Drive, between the east village line and the south village line – 30 mph

In addition, two youth play areas on Onondaga Street – one behind St. Peter R.C. School and the other adjacent to the Marilyn Toohey Park inclusive playground – are labeled as 20 mph speed zones.

Per the amendment language, “All other provisions of the Lewiston Village Code, Section §11-16, shall remain as therein stated and unchanged.”

Coulter Farms Stand at Lewiston Landing

The Village Board agreed to give Coulter Farms a trial run at selling produce from a portable, 10-foot-by-20-foot unit on Center Street, just above Water Street (on the grass across from the fish-cleaning station).

Operators can sell fruit from their farm stand from 8 a.m. until dusk daily through the end of 2022. They will pay the municipality \$25 for each day they’re on site and, if success-

ful – both in terms of clients and appealing trustees with their approach – will have right of first refusal to return in the spring or summer of 2023.

Leone said he would craft a contract to complement the facility contract granted to Coulter Farms. He cautioned trustees it might be difficult to grant one vendor exclusive rights.

Board members suggested there’s not a lot of available rental space on Water Street, particularly as the village’s contract with its tenant at 115 N. Water – The Silo Restaurant – prohibits other food vendors from selling items in the park next to the eatery, or across the street. Most of the south side of the street is comprised of private property.

Mending Fences

Welch asked the board to consider using some of the proceeds from the recent sale of the “Big Yellow House” on Ridge Street to replace a section of fencing in front of 605 Center St. This is the home of Jackie Sutherland. Her late husband, Bruce, was a trustee and former deputy mayor.

“There’s a great, big section of fence in front of Sutherlands’ that has been rotted,” Welch said.

Wills said, “A while back, we started replacing that fence, and we did the first section. And then we started with summer projects and all that, and

just got rolling; and things got crazy.”

Welch said, “That was our streetscape fence. We put it up (roughly 22 years ago). We were responsible for it. It’s been all broken.”

“It’s all rotted away,” Trustee Nick Conde said.

“These fences, they’re just rotten,” Welch said. “There’s nothing to repair anymore.”

Fence replacement cost is expected to be less than \$9,000, with vinyl posts set

to replace the broken-down or missing wood. Treasurer Stephanie Longwell said a little more than \$177,000 in property sale proceeds remains in the account line.

Trustees voted to approve this action.

Welch said members of the village’s Beautification Commission and the Lewiston Garden Club have looked into replacing all of the white fencing along Center Street. The projected total cost is almost

\$100,000. Subsequent repair work is expected to be piecemeal, as donations, grants and other funds become available.

“Breaking it up, we might be able to do some (more),” Welch said. “The Garden Club might be able to help out, or beautification – one of them.”

Wills said the DPW is at a point where it can no longer fix the fencing at Academy Park because “there’s nothing to even screw to.”
