

Snow Roof Risks

Severe
Winter
Weather

How much snow on your roof is too much?

Weight of Snow & Ice

Ice: 1 Inch

Packed Snow: 3 - 5 Inches

Fresh Snow: 10 - 12 Inches

The amount of snow/ice that equals
5 lbs per square foot of roof space.

A house should be able to support 20 lbs per square foot of roof space.

20 - 25 lbs

'Danger Zone'

When snow/ice on
your roof exceeds
this amount
per square foot

\$40

Roof Rake

The cost of a roof
rake, which can allow
you to safely remove
snow from your roof
